

Product #: PSM1412-IC3A

Product Name: Strapping Machines

Description: The PSM1412-IC3A, our newest, low cost semi automatic strapper, gives you all the quality and reliability of PAC strapping machines at an unbelievably low price. This unit, similar to the PSM1412-IC3, a proven performer for years, is consistent, reliable, and ideal for general purpose semi automatic applications. Electronics are controlled with integrated circuit technology to minimize down time, and the new unit now features externally controlled tension for ease of operation. Pricing on this unit is designed to expand the market to even the occasional user.
